Joining Squares

Join eight squares and then the other nine squares together creating 2 panels.

Place two squares front sides facing each other.

Skip the chain spaces; you will work in to the **sc's** only, using the both loops

Work one sc into the loops of each corresponding stitch.

Total = 24 sc

Finishing edge

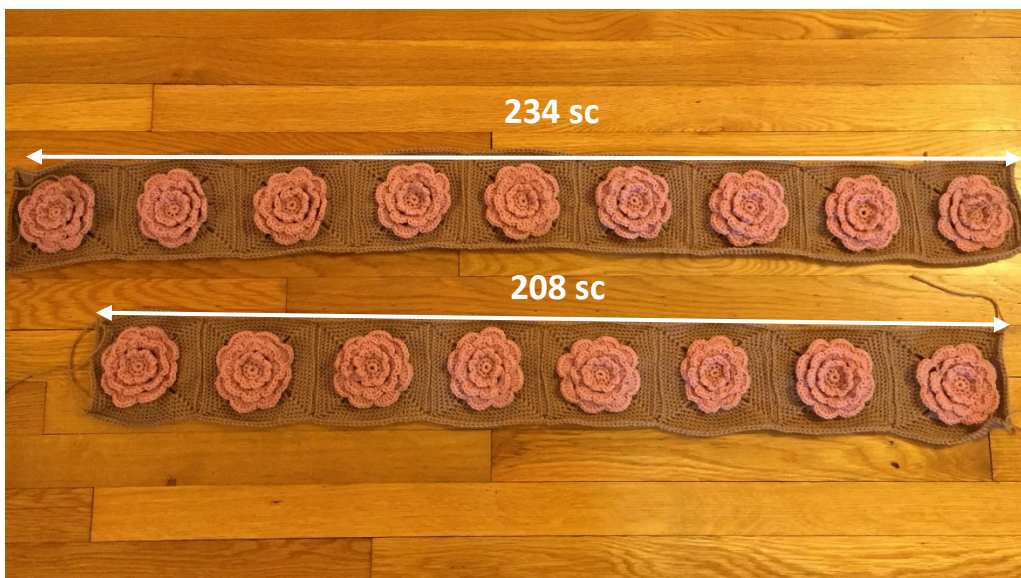

Starting in the chain 2 corner space of any long side,

sc in ch sp, sc in the next 24 sts, sc in ch sp repeat to end.

Only on one side of the panels. This will be the edge you use to join to your main shawl.

Long Panels = 234 sc on each side

Short Panel = 208 sc on each side

Fasten off and sew in ends. Do not join to your shawl.
