Round 12

Fasten ends away

Size should be approx. 5" unblocked

Joining

Make 4 panels of 5 squares each, using the slip st join method

Note DO NOT fasten joining ends away until instructed

Place squares wrong side facing each other so you will be joining on the right side.
Each square has 25 sts on each side and you will join st to st using the 2 outer loops only.
Insert hook into the outer loops, pull yarn through and slip st.
Total = 25 slip sts

Leave your joining ends free, you will need these later.
End of part five.
